---

## SUMMARY

Software engineering student at Centennial College with a focus on web development. Learning to build web applications that are both functional and visually appealing, with hands-on experience across React, Java, C#, SQL, and Linux. Goal-oriented toward writing clean, maintainable code and creating user-friendly experiences.

## EDUCATION

### Diploma, Software Engineering Technology

2025 – 2027 (In Progress)

Centennial College, Toronto, ON

- Currently in Semester 3, focusing on web application development, databases, and Java programming.

### Diploma, Information Systems

2002 – 2005

Centennial College, Toronto, ON

- Focus on Information Systems Management, with an emphasis on the business side of technology.

## TECHNICAL SKILLS

**Web Development:** React, JavaScript, TypeScript, HTML/CSS, Vite

**Languages:** Python, Java, C#, JavaScript/TypeScript, SQL

**Databases:** Oracle SQL

**Tools & Platforms:** Git/GitHub, Jira, Linux/Unix (VirtualBox/Ubuntu), Visual Studio, VS Code, Eclipse, Node.js/npm

## PROJECTS

### Personal Portfolio Website

COMP229, 2026

- Built and deployed a personal portfolio site using React, TypeScript, and Vite, including custom routing, a validated contact form, and a personalized design system.

### BookED — Room and Equipment Booking System

COMP246 Term Project

- Contributing to the design of a centralized, web-based platform for Centennial College students, staff, and faculty to search real-time availability and reserve shared educational resources (study rooms, labs, equipment).

### MatchMyHome

COMP225, Software Engineering Group Project

- Collaborated on the Software Requirements Specification (SRS) and UML modeling for a home-matching application as part of a group software engineering project.
